

Trek ZED Extrication Device

- The Trek ZED affords a versatile means of immobilising and extricating patients from motor vehicles or confined spaces where free access is limited.
- Ergonomically designed to allow X-rays or advanced life support procedures to be performed with the zed in action.
- Durable heavy-duty, vinyl-coated nylon is easy to clean.
- Includes neck roll, two head straps wrap-around vest, and tough fabric carry case
