DO I NEED AN R3 FIRST AID KIT?

R3 Kits are recommended to be used as a central Kit for larger sites where multiple kits are required.

“Where there are separate work areas (for example, a number of buildings on a site, or multiple floors in an office building), it may be appropriate to locate first aid facilities centrally and provide First Aid Kits in each work area. This may include portable First Aid Kits in motor vehicles and other separate work areas.”

Source: 2016 First Aid in the Workplace Code of Practice, SafeWork Australia, Section 2.2

R2 Kits are recommended for your portable First Aid Kits.

R3 RANGE

The FastAid R3 Series First Aid Kits. The premium solution for a central First Aid Kit in your workplace. The R3 range is ideal where multiple Kits are required, or even if you simply want a premium Kit.

FIRST AID KITS FOR COMMERCIAL VESSELS

What is NSCV?

National Standard for Commercial Vessels (NSCV)

The NSCV is the Legislation and Marine Safety Standards which govern health and safety for commercial vessels. NSCV is a standard that covers aspects of vessel design and construction which are vitally important to the health, safety and wellbeing of passengers and crew.

Between 2005 - 2008 there were 2,760 reported incidents onboard commercial vessels in Australia.

Are you prepared with an NSCV compliant First Aid Kit?

30nm out to sea is not the moment to realise you need a First Aid Kit.

Be Prepared!
